

This took plenty of water

These three scenes give a graphic picture of the devastating power Verde Creek possessed during the floods. When giant sections of concrete can be moved around like match sticks, it provides unforgettable proof of the destructive power in

flood waters. Rebuilding the bridge will begin with planning and letting of bids after funds are authorized, according to resident engineer C. E. Hackebell. (Photos by James Overstreet)

DETOUR ROUTE

Detour being built

The sign on the Bandera highway still says "motorists must detour to get there." But C. E. Hackebell, resident engineer for the Texas Highway Department, says that a surface detour is under construction at the Verde Creek site. "We hope to have it completed at least by the middle of next week," he said Monday. "However, it is not officially open at this

time so we must ask motorists to continue using the detour route." Hackebell also said that once fund authorization is made, his department will prepare plans on a new bridge and a contract will be let. He gave no estimate of the time that will elapse before a new bridge is ready for use. (Photo by James Overstreet)

City problems to get airing

Problems that for a long time have proved thorns in the side of the City of Hondo and its citizens will get a

thorough airing at a 7:30 p.m. meeting scheduled for the City Municipal Building Sept. 21.

Rep. John Poerner called the Anvil Herald from Austin Tuesday morning to say he has arranged a gathering of

representatives from various state and Federal agencies to meet with local authorities and interested citizens for

that date.

"Fritz Lanham, who heads Gov. Preston Smith's Community Service division, will be at the meeting and will bring representatives of the Water Quality Board, the Water Development Board and some people from HUD, Housing and Urban Development," Poerner said in the telephone conversation.

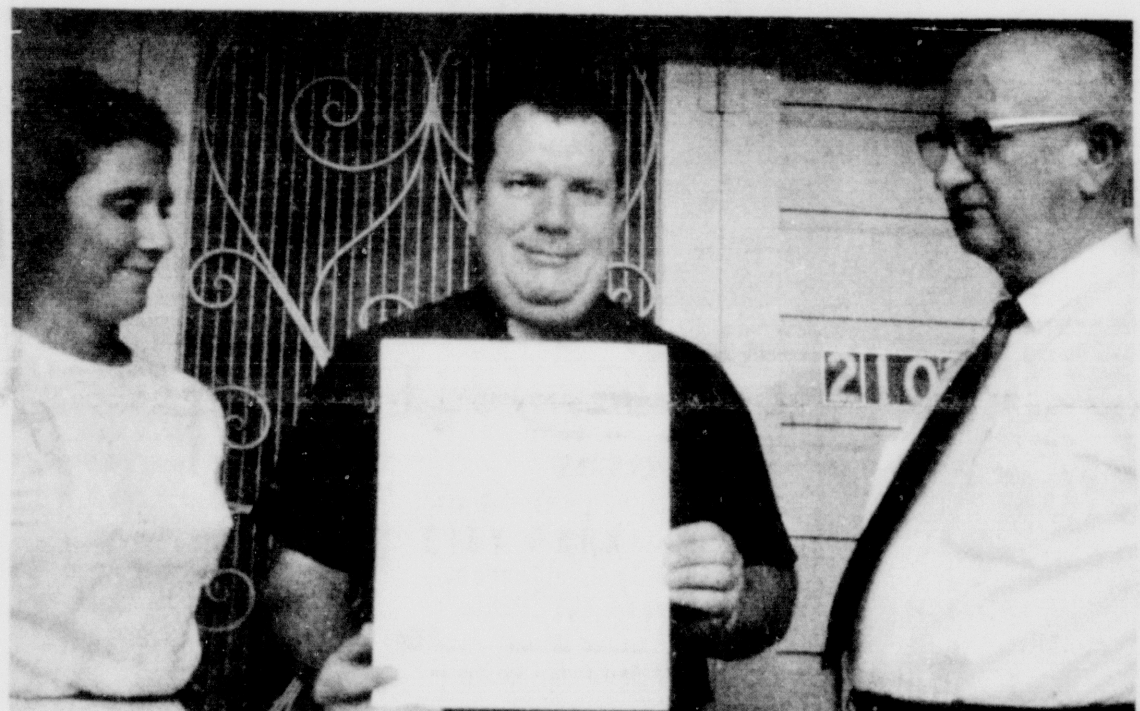

The State Representative pointed out that all these people represent departments that have money to use for certain areas of help in cities like Hondo.

"The HUD people will be here to discuss housing problems and how they might be solved, and the procedures for solving them," Poerner said. "If areas like the flood-stricken portion of East Hondo are to be cleared to prevent future flood damages or to provide better housing, then the people who live there must have homes to move into," he explained. "This is what we hope the HUD people can tell us--what can be done, what it will cost, how to go about getting it done."

School dedication scheduled

Official dedication of the McDowell Junior High School building will be held at 8 p.m. Tuesday, Sept. 14. Superintendent Kenneth Flory announced Monday.

The ceremonies are scheduled for the McDowell cafeteria with the complete details to be announced later.

STAY HOME -- AND LIVE!

The thought of becoming a traffic statistic becomes more unpleasant to me as I daily step forward toward that time the Good Lord has designated for my departure from this world.

So, if I possibly can, I stay home and off the highways on holidays. It might not make me live longer, but I can assure you it prevents me from being frightened."

Labor Day weekend provides another three-day period in which Texas drivers have more time to kill themselves -- or more tragic yet, others.

I have long since reached the point of cynicism where I could care less about the reckless driver, the drunk, the "nut behind the wheel" killing himself -- if he could just do it without taking one, two, three or more other people with him.

The prediction flag has been hoisted to the top of the Labor Day pennant pole and it shouts loudly that 52 persons will die on Texas roads and streets from 6 p.m. Friday until 12 midnight Monday.

Don't let it be your blood that helps stain that "pennant flag" a victory red. If you don't stay at home and off the highways then for your sake drive carefully -- and watch out for that nut who doesn't give a hoot whether you live or die as long as he

Funds to be allotted Friday

County Judge Jerome Decker and City Manager Fritz Leinweber (and possibly others) will be on hand in San Antonio Friday afternoon to help draw up plans for distribution of approximately \$300,000 received by the Alamo Area Council of Governments under the federal Emergency Employment Act.

AACOG has been designated by the State to administer the employment program for the Alamo Area region. Counties to be served include: Atascosa, Bandera, Comal, Frio, Gillespie, Guadalupe, Kendall, Kerr, Medina and Wilson.

San Antonio and Bexar County received individual fund allotments.

Representatives from cities and counties that are members of AACOG will be responsible for devising an equitable formula for distribution of the employment funds throughout the 10 counties, using as a basis the rate of unemployment in the affected areas.

Under the guidelines issued by the Department of Labor, financial assistance is being given to public employers to provide needed jobs in public service areas to unemployed

and underemployed persons. The public service positions will cover a wide range of community needs, including education, crime prevention, maintenance of parks and streets, and other areas of community improvement.

Groups to be given preference in employment opportunities under the act include veterans of service in either Vietnam or Korea; persons 18 years and older just entering the work force, or those over 45; migrant farmworkers and persons with a limited English-speaking ability; and those either on welfare or with incomes below the poverty level. Also, specifically designated for relief are persons who have suffered unemployment because of cutbacks in Federal expenditures in defense, aerospace, or construction.

VISIT MUSEUM
The Medina County Museum will be open five days this week--Thursday, Friday, Saturday, Sunday and Monday.

Opening time will be about 11 a.m. on all days except Sunday and that will be 1 p.m. Closing time is around 5 p.m.

Few people have ever seen destructions flood caused

The floods of August 12th and 13 have caused destruction within Medina County that few people have seen before. Water, when not controlled, can be very damaging. The control of water is a cooperative effort between all persons. This does not include only the people who are being flooded, but the landowners where the water falls. Floods are caused by the accumulation of rain drops that fall over the entire watershed. To control the water from flooding, structures must be installed within the watershed, at suitable locations, where water can be stored and released at a slow enough rate not to overflow the creeks.

Congress has authorized the Soil Conservation Service to work in small watersheds. This is known as the Public Law-566, Small Watershed Act. The area in a watershed cannot be in excess of 250,000 acres to be classified as a small watershed.

The Seco Creek Watershed is an example of the small watershed protection program. Here the people have joined together for a common cause.

The watershed protection plan has not been completed on the Seco and Parker Creeks. This plan could be completed with a little effort if the people within the watershed band together and work for this one common cause. The Soil Conservation Service stands ready to move forward and complete this plan, which is the next step in getting the flood prevention structures built. Sure, these structures may cause some inconvenience, but the benefits out-

weigh any damages the structures may cause. Man does not live alone and must share his good fortune with others. The Seco Watershed project is a joint effort among all landowners and unless all are ready to cooperate the project cannot become a reality.

It is hard to put a monetary value on flood damages, but to give you some idea of what Joe Camp, Watershed Planning Party leader from San Marcos, put on the Seco Watershed damages --

County Roads - 6 miles @ \$1,000 /mile - \$6,000
Fences - 15 miles @ \$700/mile - \$10,500
Texas Highway Damages - 2 miles - \$20,000
Land Leveling Fields - 400 Ac. @ \$75/ac. - \$30,000
Twenty Homes Flooded in D'Hanis @ \$3,500 - \$70,000
Ten Businesses Flooded in D'Hanis - \$50,000
Other Agricultural Land damaged 5,000 ac. @ \$15 - \$75,000
Crops damaged @ \$5.00/ac. - \$25,000
Private Roads etc. - \$10,000
Livestock loss and Farm ponds - \$35,000
Railroad damages - \$5,000
Total estimated damages for Seco Creek Watershed - \$336,500.

The damages caused by this flood were enough to have built the two structures planned on the Parker Creek. It doesn't make much sense to just keep waiting, does it? Another flood will come, so let's be prepared and have the flood structures built.

School enrollment increases

However, as of Tuesday of this week the figures at the various school read: Kindergarten, 78; Meyer, 599; McDowell, 519; High School, 487; Special Education, 35; Total: 1716.

Drive Friendly and we'll See You Tuesday!

IT CAN HAPPEN AT HOME, TOO

Just because you stay in Hondo, don't get complacent with your driving. If you have driven around town lately and encountered some local driving habits combined with numerous "blind" corners, then you realize that Hondo isn't the safest place in the world for driving.

Three times in the past week, I have experienced "near misses" due to the simple fact that some drivers forgot or ignored the rule of driving which says "the car on the right has the right-of-way whenever there is no stop or yield sign."

On all three occasions I was the car on the right and two of the other drivers had the nerve to even blow their horn at me as if I were the one that was wrong (not that I haven't been on some occasions, I'm sure).

And blind corners, Hondo is loaded with them! This despite the fact that a survey made by a traffic engineer (paid for from tax money) gave the City Council a run-down on all of them way last year.

Then, just this year, a group of young people became concerned and made a survey of their own. They mapped the danger spots in the city and made a fine report to the Council.

The blind spots are still there. And if you drive over town any at all, you don't need for me to tell you where they are. You know.

E. V. Day came by the office one day last week and wanted me to go riding with him so he could show me a blind spot where he had almost crashed into a nother car which had pulled out from behind a bushy corner into the path of his pickup.

His question was and is (and many others have asked the same thing): "When is the City going to take that engineering survey and the one made by the young people and start eliminating these blind corners, even if they have to "cut down a few hedges, bushes, trees, tall grass and other obstructions on their own?"

Will it take an unnecessary death to bring about the action? We all certainly hope not.

During the meantime, it certainly behooves all of us to examine our property and determine if something there is posing a traffic hazard. If so, then we should eliminate it.

To the editor

Dear Mrs. McDade:

I read with interest your article about the ACOG in the Hondo Anvil Herald. It seems that the door is locked after the horse was stolen.

Although 27 letters were sent out to that many agents only 20 people attended, although 100 were expected.

After this meeting was held it seems they called on the news media to publicize it to the people. Why?

Didn't the citizens have a right to attend the meeting? If the answer is yes as it appears it should be, then why not let the newspaper know about it in ample time to publish same.

I have never known of any of our three newspapers in the county to refuse the printing of any notice of a public meeting.

Mr. Abbott might try publishing or notifying the three newspapers in this county and then the expected 100 might materialize.

Sincerely,
O. Sauer

International gives aid

Local American Red Cross and Salvation Army organizations received more help this week from the International Brotherhood of Pottery and Allied Workers. The headquarters in East Liverpool, Ohio sent \$250 to each organization, and the checks were presented Monday afternoon. In the presentation were, left to right,

Lupe Alvarez, Red Cross disaster chairman; Fidel Sanchez, International representative; David Gallegos, president of local unit #325, D'Hanis; Raymundo Rodriguez, president of local unit #237, Hondo; Mrs. Bud Guinn, American Red Cross; and Bill Crow, Salvation Army.

Museum dedication held

After the floods caused postponement of the original date set for Aug. 15, the Medina County Museum, Inc., was formally dedicated Sunday afternoon, in a short and informal service held in the big storeroom of the old SP depot, now home of MCM.

John R. Wentz, MCM president, introduced the Rev. Homer Weimer, pastor of the First United Methodist Church, who gave the invocation.

Following greetings from County Judge Jerome Decker, Wentz introduced Paul Christilles, Jr., mayor pro-tem of LaCoste, whose city was the

only one of the county's five incorporated cities represented.

Wentz explained that many officials who had been invited to participate in the dedication were also "everyday farmers and stockmen" who had been working overtime "even moonlighting" to repair damages to their land and fences.

Wentz introduced MCM officers, Douglas Bohmfalk, vice-president; Mrs. Oswald Sauer, secretary; Mrs. E. W. Brucks, treasurer; and Tony Mendoza, membership chairman.

Present also were board members, Mrs. Alex Grant, Jr., Frank Graff, Misses Nora Winkler, Mary Ruth Cameron and Sherri Weynand, and Mrs. Gladys Lindeberg who is in charge of the displays.

President Rene Aelvoet and Manager Harry Filleman represented the Hondo Chamber of Commerce.

About 150 persons attended the dedication service and shared refreshments of punch and cookies, served by the MCM junior volunteers, Judy Heiligman, Dorothy Jones, Pamela Pitre and Kay Wentz.

Dennis Neuman maintains family tradition in FFA

When Dennis Neuman received the State Farmer Degree award at the State FFA Convention in Houston, he made his parents, Mr. and Mrs. Clarence Neuman, more than proud--in fact thrice

proud. For Dennis made the third son of the Medina County people that has won the State FFA Degree. And this, mind you, is an award that only two percent of the active FFA

membership can earn at one time. It is the highest award given on a state level.

Other Future Farmers of the Neuman clan to win the award were Charles and Lynn, both of whom won while seniors at Hondo High School.

Dennis carried a well-rounded project program all four years in FFA, according to Advisor John McAnelly. He also served as a member of judging teams and played both baseball and basketball.

In his second year, Dennis competed on the Dairy Judging team that placed 22nd in a state field of 65 teams. This past year his State Range team placed second in Area and

10th in State with 50 teams competing. Dennis was high scoring individual in district.

The project program helped Dennis earn more than \$864 net profit from his three years before reaching senior. He had field crops, range cows, breeding sows, feeder pigs and show lambs as his productive projects. In his first year he qualified for

Chapter Farmer degree by earning \$135.61 net profit.

A FFA member must earn at least \$500 from his productive projects and have an agricultural investment of \$500 or more at the time he applies for the State Farmer Degree.

Dennis is now enrolled at Southwest Texas Junior College in Uvalde.

Ricord-Goslin vows exchanged in Devine

Miss Brenda Ricord and Jeffery Goslin were united in marriage at a double ring ceremony July 30, 1971 with Father Wilfred Passchyn performing the ceremony. Mrs. Arthur Ehlinger was at the organ and sang "The Wedding Prayer".

Brenda is the daughter of Mr. and Mrs. Nolan Ricord of Devine and Jeffery is the son of Mr. and Mrs. Jess L. Goslin, also of Devine.

The bride, given in marriage by her father, wore a floor-length gown of white satin with an overlay of lace accenting the bodice. It was designed with an empire waistline, a high neckline and two tiered sleeves with a wide fitted cuff scattered with decorative sequins and pearls. A scatter of lace roses centered with sequins and pearls highlighted the skirt. Her train made of chiffon was attached at the empire waistline with a large bow and was also designed with a scatter of roses. She wore a shoulder-length veil attached to a crown of pearls and sequins. She carried a bouquet of orchids surrounded by carnations with two long-stemmed red roses in the middle, which she presented to her mother and the groom's mother during the ceremony.

same color that accented the low neckline. Small baskets of rose petals were carried by the junior bridesmaids. The bridesmaids carried large white mums decorated with blue ribbon and white streamers.

Foster receives honor This week

Selections for the 1971 edition of "Outstanding Young Men of America" have been announced and includes the name of a Medina County resident.

Bruce T. Foster, Tarpley Route, will be included in the annual biographical compilation.

Chairman of the selection board, Doug Blankenship, said that the men selected "have distinguished themselves in one or more fields of endeavor to the point of being outstanding."

Criteria for selection include a man's service to others, professional excellence,

business advancement, charitable activities, and civic and professional recognition.

Foster, a county rancher, is extremely active in various organizations pertaining to cattle production and range management. He and his family are members of the Hondo United Methodist Church and he is a strong and active participant in the affairs of the Republican Party of Texas, serving as County Chairman.

President Richard Nixon has said the selections: presents a most fitting testimonial not only to the success of many of our young people, but also to their awareness of the debt which they owe our free society."

Citation given

Citations for Service were presented this week to Lupe Alvarez of Hondo and the International Brotherhood of Pottery and Allied Workers of East Liverpool, Ohio. Alvarez, disaster chairman for the local Red Cross unit, receives his citation from Mrs. Bud Guinn in top picture. In the lower picture Alvarez and Fidel Sanchez, International representative, read the citation presented the International. Thus, for service rendered "above and beyond" the International and Alvarez were named into the Texas Red Cross Longhorn Club.

That's all she wrote

by Edna McDade

IRENE S. (Mrs. Mark) MARSHALL shared a treasured scrapbook with me. It contains yellowed news clippings of the years when her father, the late W. N. SAATHOFF, was Medina County School Superintendent, a post he held for almost a quarter of a century.

A story, written by him and which appeared in the ANVIL HERALD (date not shown) covered the history of Medina County schools from 1855-1928. Term of one school was 1½ months, 24 pupils were enrolled, and their teacher received a total of \$8.63 for that term's services.

Highest salary paid was to a man who taught 68 pupils and received \$156.77 for the 8 months term.

These facts need to be remembered when one harks back to "the good old days" (to which no one really wants to return) in these days of strikes and frozen increases etc. about which never a suspicion was raised back yonder when . . .

School directories (1923-24 and 1927-28), both published during Supt. Saathoff's administration, must be seen and read to be appreciated. Among the many pictures are those of students and teachers of the '20s and you've no idea how the survivors have changed in the intervening years!

MARGARET (Mrs. J. H.) MUENNINK made sure that she and her Meyer 3rd graders would become well acquainted on the first day of school. She provided each child with an ID card which said "Hello, I'm _____".

This is only one of the little "extras" which many of our dedicated teachers provide, at their own expense, to make the learning process easier for their young charges.

FRANCES (Mrs. Bru) MILLER told me that a nephew, JACK DROITCOURT III, a U of T graduate and now on duty as radioman with a branch of the US NAVY, had been among the crewmen of the U.S. OKINAWA when they scooped up the Astronauts of the Apollo 15 on their return from the Moon.

Jack is the son of JACK and CHARLOTTE (Miller - Bru's sister) DROITCOURT of Fort Worth.

ANGIE, diminutive daughter of GEORGE and DIANA GOODING, attended church services recently with her great-great grandparents, Mr. and Mrs. ROBERT MUMME--who seldom miss a Sunday at the Methodist Church.

Angie was a perfect little lady and seemed to be listening for the voice of her Aunt ALICE (Mrs. Alvin) WIEMERS who is a faithful member of the choir.

When I met Mrs. ALFRED WALCH of Quihi at Winn's soon after the flood, she told me that, luckily, they had painted their home inside and out before the rains came.

"Also," she added, "we feel very fortunate because our 800-gallon tank was filled to the top and running over for the first time in a mighty long time."

RUDY, an 8th grader at McDowell Jr. High, and oldest of the five children of RAFAEL and LUTERIA TAPIA, is one of the tireless young volunteer workers at the Museum.

"I enjoy this," he told me, "and I think it is my responsibility to help. If everyone who can would help even a little bit, we can have a fine Museum some day". (Non-helpers, to date, please take note!)

Rudy says he hopes that his twin brothers and two younger sisters "will try to do their share some day, too". Rudy looks forward to graduation from Hondo High, along about class of '75, and is determined to go on to college "to prepare myself for the future".

Every good wish to one of our young and dedicated citizens.

MARTHA (the Drs. Duty) PICKTHALL and I occasionally share items we have read and enjoy. This, which came in recent mail, merits sharing with readers:

"There was a little dachshund once/So long he had no notion/ The time it took from head to feet/ To register emotion

"And so it was that when his face/ Was filled with tears and sadness/ His little tail kept wagging on/ Because of previous gladness."

I'd call this a "tale", with a happy ending, wouldn't you?

Desire great, Owls head for Boerne scrimmage

Friday night in Boerne in their second scrimmage of the year Coach Nelson Bippert will be looking for the Hondo Owls to make a few less mistakes than they made at Southside last week.

"We made a lot of mistakes," he said Monday afternoon.

"But the boys played hard, despite the film showing they missed blocking assignments," the coach pointed out.

If it had to be measured at this stage of the pre-season preparations, the defense showed a little better than the offense in the scrimmage against Southside.

"However, the offense

moved the ball pretty good," Bippert said. "We stayed mostly on the ground and used our basic game of running right at the defense. They stacked their defense and stunted all time, but we still moved the ball."

Despite the mistakes, the Owls came through in flying colors in the coach's opinion when it came to "spirit, determination and desire."

"In these departments they were great!" he said.

Scrimmage time against the Double A Boerne eleven begins at 7:30 p.m. Friday night. This will be the final scrimmage, for on Friday, Sept. 10, the Owls host Three A Del Rio on Barry Field in the season opener for both clubs.

Concessions planned Saturday nite

Concession stands will be open Saturday night when the Hondo B-Team scrimmages the D'Hanis Cowboys on Barry Field at 7:30 p.m.

Band Booster President Harold Herring said the band parents will open the stands for soft drinks, candy, coffee possibly popcorn and "those big fat dill pickles" that are so popular.

Band Booster members who are scheduled to work are urged to be there prior to the 7:30 p.m. starting time, Herring said.

Harmon Football Forecast to appear in Anvil Herald

The Harmon Football Forecast, one of the country's most popular sports features, will appear in the Anvil Herald each week during the 1971 football season, starting Sept. 9. Sponsorships are being sought now.

In addition to forecasting the results of some 180 games each week, as well as the New Year's Day bowl games, Harmon will rate the top 20 college teams in the nation each week beginning with the forecast for Sept. 25th. His National Football League pro selections will also be published each week.

Starting his 15th year of football forecasting, Bob Har-

mon has seen the publication of his prognostications grow from three newspapers in 1957 to over 300 newspapers in 1970. His rather fantastic football "snowball" now appears in newspapers of all sizes . . . dailies, weeklies, and college publications . . . in 47 states.

Harmon uses a formula to arrive at the rating for each of the more than 640 football teams that he follows each fall. The score that is predicted is simply the interpolated difference between the numerical rating of one team and the numerical rating of its opponent.

And, though boasting a college forecasting accuracy

equal to any in the nation, The Harmon Forecast makes no wild claims of unbelievable guessing percentages. Harmon has a proven accuracy over the past 14 years of between 75.2% and 77.9%. His pro forecasting average is between 68.3% and 71.8%.

Robert S. Harmon, born in Marshall, Minnesota, is a 1943 graduate of the University of Minnesota. While he was in high school and college, the powerful Gophers, under their great coach, Bernie Bierman, were national champions five years out of eight.

The Harmons live in Circleville, New York.

S. Hondo 4-H Club elects new officers

Unit I of the South Hondo 4-H Club met Aug. 30 in the Methodist Educational Building. The members of Group I, under the leadership of junior leaders Mariette Aelvoet and Andy Gilliam, planned the night's activities.

Allen Boehme led the prayer; Margie Geuea led motto and pledge; and Joy Heiligman led the group in a song. The program was presented by Glenn Dittmar of the Soil

Conservation Service on native trees.

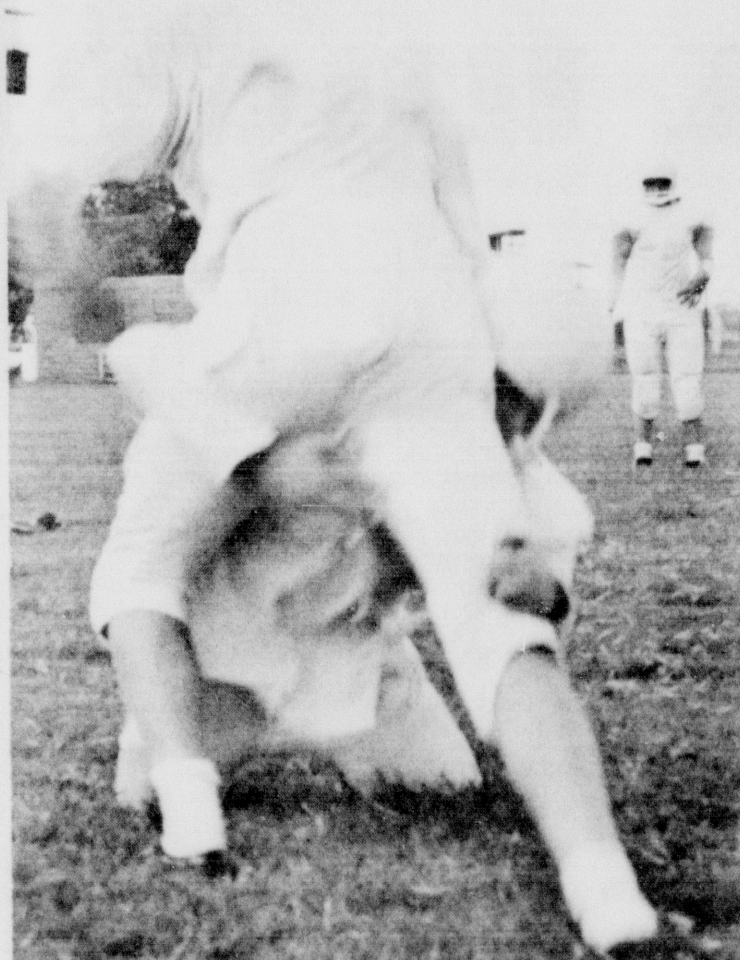

The club elected the following officers for the '71-72 year: girl and boy co-chairmen, Mariette Aelvoet and Gordy Bohmfalk; girl and boy council delegates, Alice Geuea and Andy Gilliam; secretary, Vicky Gilliam; treasurer, Tim Hay; reporter, Jeanette Aelvoet; and parliamentarian, Tim Gilliam.

Recreation was led by Andy Gilliam and Randy Graff.

Club members who received blue ribbons in the county record book contest but did not enter the district contest were Vince Gilliam in senior achievement and Paul Aelvoet in junior horticulture.

Red ribbon winners in the county contest were Joy and Judy Heiligman in junior clothing.

... D'Hanis prepares for Saturday night scrimmage with Hondo B-Team

Hondo footballers comprising the B-Team meet a tough opponent, the D'Hanis Cowboys, Saturday night and the end results will give Coach George Reddell an opportunity to tell how they might stack up against Medina Valley in their season opener Sept. 9.

Scrimmage time Saturday night at Barry Field will be 7:30 p.m. and the public is invited.

"It should be a good, tough scrimmage," the coach said. "D'Hanis always fields a good ball club and we expect them to give a good account of themselves."

Coach Reddell said he has no idea who will be starting where in the Medina Valley clash on Thursday, Sept. 9, but Saturday night should give him a good indication.

Natalia & Chacon Lake

By Mrs. I.W. Thompson

Mr. and Mrs. Nelson Morgan have as their house guests his mother, Mrs. Lettie Morgan from Mooresville, N.C., and his sister, Mrs. Robert DeLaney and daughters, Debbie and Donna, from Austin.

Mr. and Mrs. Fred Rodriguez, Mario, Glenda, Gloria, and Martha from San Jose, Calif. arrived in D'Hanis on Sunday night for a two weeks vacation visiting the Victor Guevaras, the Albert J. Saldanas in Natalia, and visiting in SA and Poteet.

Mr. and Mrs. W. C. Taylor, accompanied by Mrs. O. C. Moses, left Tuesday, Aug. 10, for a 10-days' vacation in Arkansas. The Taylors visited her sisters and brother-in-law, the Sid Scarlets and Mrs. Brown Carter at Pine Bluff, also, her sister, Mrs. Bertha Toler, and daughter, who were visiting from Greenville, Miss.

The group motored to Little Rock Saturday evening to attend the wedding of Miss Rena Smith and Mr. Ted West. They enjoyed a family reunion Sunday at the home of the Scarlets. This was the first time Mrs. Taylor had been back to Pine Bluff in 23 years. Mrs. Moses visited her son and daughter-in-law, Mr. and Mrs. Lawrence Hollis, and other relatives at Hope.

Mr. and Mrs. Johnny Velasquez and John and Mrs. Velasquez's mother, Mrs. Lupe Navarro, went to SA Sunday for the day with Mrs. Navarro's daughter and family, the Chon Moraleses, Dollie, Diane, Donald, Chon, Jr. and Robert.

Mr. and Mrs. Albert J. Saldana entertained their son, Danny, on his 13th birthday and Mr. Saldana's nephew, Eddie Saldana, on his 14th birthday on Saturday, Aug. 21. They enjoyed a weiner roast at their home. Approximately 30 guests were present.

Mr. and Mrs. Richard Sepulveda honored their son, Ricky, on his 15th birthday on Wednesday with a social and refreshments at their home.

Mr. and Mrs. Roy E. Allison returned home Saturday after having visited since Monday in Weatherford with their daughter, Mrs. Ruby Hammond, and Kelly and Mrs. Mike Hammond. Mrs. Allison's sister, Mrs. Pauline Young of SA, accompanied them on the trip and she remained to make her home with the Hammonds. WE NEED A HOME

BY PATRICIA LAWRENCE

Regional Adoption Supervisor

Texas Department of Public Welfare

(This is the sixth in a series of eight articles covering answers to questions about adoption and foster home care.)

QUESTION:

We would like to adopt an infant, but all of the private and public agencies have told us there will be a long wait before we can adopt. Why is this?

ANSWER:

The demand for infants far exceeds the supply of such children in Texas. The State Department of Public Welfare

has currently available for adoption only older children 8 to 16 years old who are Mexican-American or Black. If a couple asks for a child who is not available through our agency, we refer them to other appropriate agencies.

Private agencies tell us they have fewer babies for adoption recently. As a result more and more people are asking for older children. For further information about the older child, contact the Texas State Department of Public Welfare, 426-3949, Hondo.

Red Cross office is now closed

The Red Cross Disaster Office located at the National Guard Armory has been closed.

However, if there are people who suffered losses during the flood and whose needs have not been met, they should contact Lape Alvarez, Red Cross Disaster Chairman for Medina County. He will advise the Disaster Representative in the San Antonio Red Cross Office of their request for assistance.

Red Cross expresses appreciation to the many people who volunteered their services and by so doing, helped their neighbors. Appreciation is given to those who acted as interpreters, receptionists, worked at mass feeding and shelter, gave money and help in other services.
